SALT CHLORINE GENERATOR

**TRADEGRADE**  
BY PENTAIR

SMART TECHNOLOGY FOR HEALTHIER,  
PURER POOL WATER

# Ordinary table salt. Extraordinary technology.

The chemistry behind the iChlor™ Salt Chlorine Generator makes it so simple to use—just add salt to generate all the chlorine your pool needs. Our smart technology provides built-in intelligence for unmatched convenience and control. Touchpad controls enable fast checking of salt levels, chlorine output and cell life. Plus, iChlor makes it easy to set and adjust chlorine levels, reducing the need for repeated testing and upkeep.

## iCHLOR WITH SMARTSENSE™ DETECTION

Our advanced features deliver consistent operation and important safeguards to protect your family.

### Detects your automatic pool cover

Reduces chlorine output when the automatic pool cover is closed.

### iChlor with SmartSense Detection

### Detects IntelliFlo® Pump activity

Prevents the generation of chlorine when the pump is not activated.

## UNMATCHED CONVENIENCE

Keep your pool water clear and inviting with electrolytic chlorine generation—the easiest, most effective and convenient way to maintain your pool. You get the same sanitation performance as manual chlorine addition without all the drawbacks.

No more buying, carrying, storing or handling chlorine.

No more spills, odor, stinging eyes or irritated skin.

No more bleached-out bathing suits.

## EFFORTLESS CHLORINATION

Simply adjust the output to achieve the precise level of chlorine. iChlor does the rest, automatically producing a steady stream of pure chlorine for softer, silkier pool water that's free of bacteria and other contaminants. What could be easier?

Once the chlorine has finished purifying the pool of contaminants, it reverts back into dissolved salt and the cycle repeats.

### Easy Setup

Adjust your sanitizing level in 1% increments from 1-100%. Push the button, and you're done.

### Smart Design

Automatic reverse cycling helps prevent scale build-up. And, unlike its competitors, the electronics are isolated in the cell and away from high-heat components for more dependable performance.

### Two Model Sizes

Choose from two model sizes to meet your pool chlorination needs. Sizing is based on pool capacity in gallons:

#### Available Models

- iChlor 15 (0.6) for pools up to 15,000 gallons.
- iChlor 30 (1.0) for pools up to 30,000 gallons.

### Fact Center

- Indoor/outdoor, vertical/horizontal installation.
- 115/230V, 50/60Hz power center.

## SALT CHLORINE GENERATOR

Transform your pool with ordinary table salt.

## FOR CLEAN, PURE AND SILKY POOL WATER, JUST ADD SALT.

Your pool is your backyard oasis. Now, you can turn it into a spa-like experience with crystal-clear water that feels smooth and silky to the touch. With the IntelliChlor® Salt Chlorine Generator from Pentair, ordinary table salt is converted into pure chlorine safely, effectively and automatically. You'll be able to see and feel the difference.

**PURE CHLORINE. NONE OF THE DRAWBACKS.**

No more buying, carrying, storing or handling chlorine.

No more spills, odor, stinging eyes or irritated skin.

No more bleached-out bathing suits.

**EFFORTLESS CHLORINATION.**

Electrolytic chlorine generation is the most convenient way to keep your pool clean. Simply adjust the control to achieve the optimal level of chlorine. IntelliChlor does the rest, automatically producing a steady stream of pure chlorine to help keep your pool water clean, clear and free of bacteria and other contaminants. What could be easier?

LED indicator lights for salt level, system status and chlorine output.

**Easy operation**

Choose from one of five sanitizing levels. Push the button and you're done.

**Intelligent design**

Automatic reverse cycling helps prevent scale buildup. And, unlike its competitors, electronics are isolated in the cell, away from high heat components.

**Multiple sizes**

Available in four model sizes to fit the chlorine needs of any pool. Your Pentair dealer will help select the perfect fit for your pool.

**Automation ready**

Seamlessly interfaces with Pentair automation systems. If adding automation and a chlorine generating system at the same time, opt for a Pentair IntelliTouch® or EasyTouch® Control System with built-in IntelliChlor for ultimate convenience and savings.

Water and dissolved salt flow through the generator cell.

Through electrolysis it is converted into chlorine.

Once the chlorine has finished purifying the pool of contaminants, it reverts back into salt and the cycle repeats.

Chlorinated water is returned to the pool.
